Dear Elizabeth,

I'm writing to thank you for all you have done for us. The past two years have been the most difficult of our lives. I don't know how we would have gotten through it without you in our corner.

As our lawyer, you were on top of your game. The advice you gave us and your prompt actions with all parties involved made us feel like we were in good hands. We could see how your professionalism got results from early on in this ordeal - right to the finish and we really admire you for it.

Although you represented us as our lawyer, at times you felt more like a friend. You made yourself available for our questions and concerns. On some of our most difficult days, you calmed us with your strength and confidence.

Some people truly find their niche in life and this is clearly yours. We will forever be grateful for your kindness and service.

With Sincere Appreciation,

The Family
